

St. Julian's  
Hookah Lounge Proposal

By the time a bartender **knows**  
what drink a man will have  
before he orders, there is little  
else about him worth knowing.

*Don Marquis*

Mist Bar & Shisha Lounge

A story through **middle eastern** design,  
traditional through modern

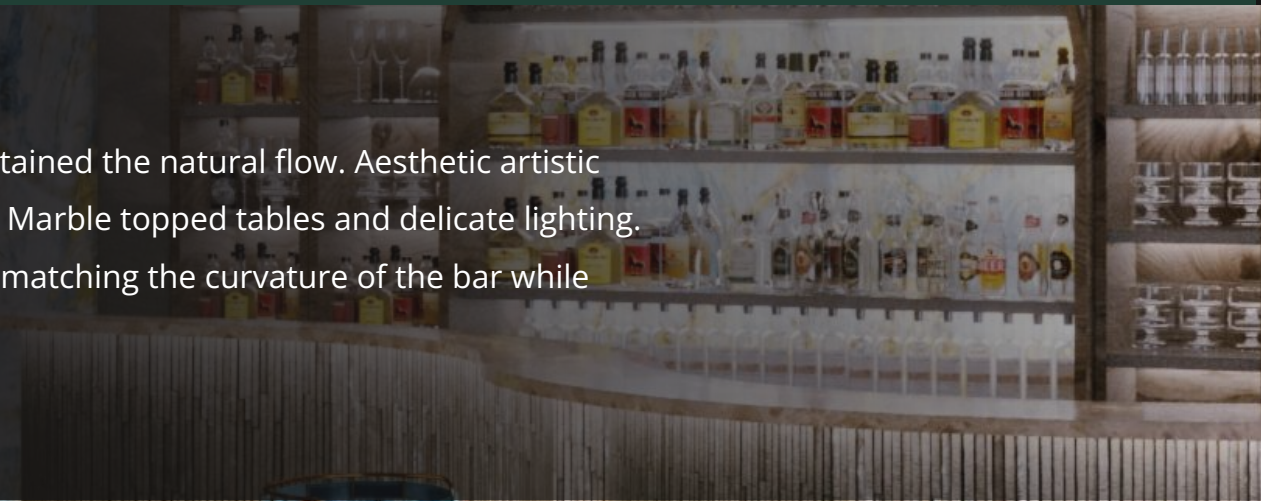

# The Interior Design

**Starting with the bar,** a combination of marble and glass. Traditional elements uplifting the bar's aesthetic, catching the patrons' eye on entry as well as lighting up the whole lounge. Great importance was also given to practically for both patrons and staff

**The Dining room,** our second chapter, we sustained the natural flow. Aesthetic artistic murals intermingled with comfortable seating. Marble topped tables and delicate lighting. Perfectly integrated with natural wood ceiling, matching the curvature of the bar while proving a comfortable ambience.

# Interior Dining Area

The interior speaks in volumes, using artistic middle eastern murals married with natural materials.

# Interior Bar Area

# Terrace and Facade Design

**The internal terrace**, the perfect place to relax and indulge. Continuing the natural aesthetic with landscaped wooden walls and elegant chandeliers. Distinguished from the interior yet still keeping the same calibre. The furniture chosen, while utilising the same palette, communicate to patrons that it's an area to let go while still enjoying the lounge's services.

**The façade**, Conclusion. Responsible for making first impressions, it had to stand out. Taking elements from the interior and elevating them to modern time. Keeping the lounge unique, yet matching with the vibes of the location. Large openings encase the terrace in natural air, at the same time providing a preview of what's inside.

Silver Sand

The colours used in the palette are taken from elements within the design and composed from nature.

The location of the lounge is ever evolving. New establishments constantly opening their doors, surrounded by landmarks which will stand for ages. When designing, we surveyed the surrounding area, observing the present as well as the future, while honouring the initial theme. Thus making the lounge timeless, presently enjoyed and admired in the future.
